1. The practice of licensed or registered persons in the field of psychotherapy is regulated by the Mental Health Licensing Section of the Division of Registrations. The Board of Examiners can be reached at 1560 Broadway, Suite 1350, Denver, CO 80802, (303) 894-7800. As to the regulatory requirements applicable to mental health professionals: a Licensed Clinical Social Worker, a Licensed Marriage and Family Therapist, and a Licensed Professional Counselor must hold a masters degree in their profession and have two years of post-masters supervision. A Licensed Psychologist must hold a doctorate degree in psychology and have one year of post-doctoral supervision. A Licensed Social Worker must hold a masters degree in social work. A Psychologist Candidate, a Marriage and Family Therapist Candidate, and a Licensed Professional Counselor Candidate must hold the necessary licensing degree and be in the process of completing the required supervision for licensure. A Certified Addiction Counselor I (CAC I) must be a high school graduate, and complete required training hours and 1,000 hours of supervised experience. A CAC II must complete additional required training hours and 2,000 hours of supervised experience. A CAC III must have a bachelors degree in behavioral health, and complete additional required training hours and 2,000 hours of supervised experience. A Licensed Addiction Counselor must have a clinical masters degree and meet the

CAC III requirements. A Registered Psychotherapist is registered with the State Board of Registered Psychotherapists, is not licensed or certified, and no degree, training or experience is required.

2. You are entitled to receive information from me about my methods of therapy, the techniques I use, the duration of therapy, if known and my fee structure. You can seek a second opinion from another psychotherapist or terminate therapy at any time.
3. In a professional relationship, sexual intimacy is never appropriate and should be reported to the board that licenses, registers, or certifies the licensee, registrant or certificate holder.

Generally speaking, the information provided by and to the client during therapy sessions is legally confidential and cannot be released without the client's consent. There are exceptions to this confidentiality, some of which are listed in section 12-43-218 of the Colorado Revised Statutes, as well as other exceptions in Colorado and Federal law. For example, mental health professionals are required to report child and elder abuse to authorities. If a legal exception arises during therapy, if feasible, you will be informed accordingly.

Theoretical Orientation

Integrative/Systems: Intervention is based on the belief that problems and solutions exist within an individual or relational "system" for some logical function, rather than in individual "pathology". Interventions are based on the belief that the subconscious catalogues the individual's life experience and that previous trauma tends to cause current symptom(s). Mind/body interventions are employed to clear previous trauma, thus relieving the current symptom(s).

I have read the preceding information, it has also been provided verbally and I understand my rights as a client/patient. I do hereby accept full responsibility for any and all actions taken by myself and/or my child concerning any therapeutic assignments, mind/body work, homeopathic remedies or prayer work with Beverly Saller. I understand that mind/body work involves minor touch by the therapist and I give my consent for that. I understand that I am not receiving a medical diagnosis, medical treatment or prescriptions, but psychotherapeutic interventions and homeopathic suggestions. If I am seeking neurofeedback treatment, testing and diagnosis will be collaboratively reached by Beverly R. Saller and myself. I understand the release of QEEG or any reports will no longer preserve the confidentiality of my records and the information contained therein. I hereby release Beverly R. Saller and Keys to Freedom Counseling and Neurofeedback, and all of their personnel, both technical and administrative, from any liability claims, demands, and actions of any kind, which may arise or result from the release of the QEEG or any reports, or with any possible damages or loss(es) incurred in our association. Additionally, collaboration with therapist(s) may occur. Young Living Essential Oils may also be used. Acu-Detox (5 point auricular acupuncture) may be incorporated and I give my permission to receive Acu-Detox.
